February 22, 2018

U.S. House Washington, DC 20515

Dear Representative:

The undersigned 75 national medical, health, public health, and research organizations write to urge you – again - to find a bipartisan path forward for comprehensive legislative solutions to firearm-related injuries and fatalities.

Many of our groups previously wrote to you after massacres in Las Vegas and Sutherland Springs. We write to you now because on Feb. 14<sup>th</sup>, 17 children and adults at Marjory Stoneman Douglas High School in Parkland, Florida, lost their lives at the hands of an individual with an assault weapon. Over and over again, such mass shootings are the tragic inflection points that exemplify the daily toll that gun violence takes on the lives of Americans. In 2016, there were over 38,000 U.S. firearm-related fatalities.<sup>i</sup> It is critical that we address gun violence as the significant public health threat that it is, so that we can enact policies that significantly reduce firearm-related morbidity and mortality.

Policymakers have an opportunity to respond to this public health challenge with bipartisan solutions that reduce injuries and fatalities associated with firearms. Federal policy should address gun violence with the same dedication applied to other successful public health initiatives over the past 25 years, such as immunizations, public sanitation, and motor vehicle safety. Reducing injury and mortality through research and evidence-based prevention and intervention strategies has been proven to improve health, safety, and life expectancy.

Strengthening firearm background checks and supporting funding for federal research and public health surveillance on firearm-related injuries and fatalities would provide meaningful progress in achieving a public health solution for this issue. We urge you to find a bipartisan path forward to enact commonsense solutions that address the public health threat of firearm-related injuries and fatalities. Our organizations stand ready to work with you to support that critical effort. Thank you for your consideration.

Sincerely,
